1. CORPORATE INFORMATION

1.1 Company Background

Suntrust Resort Holdings, Inc., formerly known as Suntrust Home Developers, Inc., (Parent Company or Suntrust) was incorporated in the Philippines on January 18, 1956 (extended for another 50 years starting January 18, 2006) to primarily engage in real estate development. The Parent Company is a publicly listed entity in the Philippines. On October 25, 2019 and December 17, 2019, respectively, the Board of Directors (BOD) and stockholders approved the amendment of the Parent Company's primary and secondary purposes, as presented in the Articles of Incorporation, to allow the Company to focus on tourism-related businesses. This change was subsequently approved by the Philippine Securities and Exchange Commission (SEC) on June 17, 2020. Further amendments were made in 2021 to increase the authorized capital stock and change the corporate name to align with the business objectives (see Note 1.3).

In line with the change in business plans to enter into tourism-related businesses, a co-development agreement (CDA) was entered into by the Parent Company and Westside City Resorts World, Inc. (Westside), a related party under common ownership to continue the latter's development, construction, operation and management of casino and related businesses. Subject to the completion of commitments from both sides, which were satisfied in December 2020, the Parent Company paid USD200 million for the initial cost of construction of a 5-star hotel and casino complex (Main Hotel Casino). The payment has been initially treated as refundable deposit until the completion of commitments from both entities at which time the amount was allocated between construction in progress (CIP) and right-of-use asset (ROUA).

Megaworld Corporation (Megaworld), also a publicly listed company in the Philippines, used to be the Parent Company's major stockholder with 42% direct ownership interest in the Parent Company until the acquisition by Fortune Noble Limited (Fortune Noble) in 2019 of an aggregate of 1,147,500,000 shares of the Parent Company representing 51% interest over the latter. Accordingly, Fortune Noble became the parent company of Suntrust and its subsidiaries (the Group). Fortune Noble is incorporated in the British Virgin Islands (the "BVI") and is a subsidiary of LET Group Holdings Limited, formerly known as Suncity Group Holdings Limited, (the intermediate parent company or LET Group), a publicly listed company in Hong Kong. Major Success Group Limited (Major Success), a company incorporated in the BVI is the ultimate holding company of LET Group.

The principal activity of Major Success is investment holding. LET Group and its subsidiaries are principally engaged in (i) through Suntrust and its subsidiaries, the development and operation of an integrated resort in the Philippines; (ii) through Summit Ascent Holdings Limited and its subsidiaries, the operation of the hotel and gaming business in the Integrated Entertainment Zone of the Primorye Region in the Russian Federation; (iii) property development in Japan; and (iv) management and operation of malls in the People's Republic of China.

The Parent Company's registered office, which is also its principal place of business, is located at 26th Floor, Alliance Global Tower, 36th Street corner 11th Avenue, Uptown Bonifacio, Taguig City.

The registered office and principal place of business of Fortune Noble is at Vistra Corporate Services Centre, Wickhams Cay II, Road Town, Tortola, VG1110, British Virgin Islands. Box 2681, Grand Cayman KY1-1111, Cayman Islands and its principal place of business is at Unit 1705, 17/F., West Tower, Shun Tak Centre, 168-200 Connaught Road Central, Hong Kong. As at September 30, 2022, the construction work of the pile cap, ground level, Levels 1, 2 and 3 of the super structures has been completed. 2.1 Basis of Preparation of Interim Condensed Consolidated Financial Statements

These interim condensed consolidated financial statements for the nine months ended September 30, 2022 and 2021 have been prepared in accordance with Philippine Accounting Standard (PAS) 34, *Interim Financial Reporting*. They do not include all the information and disclosures required in the annual consolidated financial statements and should be read in conjunction with the audited consolidated financial statements of the Group as at and for the year ended December 31, 2021.

The preparation of interim condensed consolidated financial statements in accordance with Philippine Financial Reporting Standards (PFRS) requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. Although these estimates are based on management's best knowledge of current events and actions, actual results may ultimately differ from those estimates.

These interim condensed consolidated financial statements are presented in Philippine peso, the functional and presentation currency of the Group and all values represent absolute amounts except when otherwise indicated.

2.2 Adoption of New and Amended PFRS

A number of new or amended standards became applicable for the current reporting period. However, the Group did not have to change its accounting policies or make retrospective adjustments as a result of adopting these standards. The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

2.3 Reclassification of accounts

The Group made a prior period adjustment which resulted in retrospective restatements of certain amounts as of and for the nine months ended September 30, 2021 in the interim consolidated statement of financial position, interim consolidated statement of income, interim consolidated statement of equity and interim consolidated statement of cash flows.

Based on the management's assessment, the borrowings related to the construction of the Group's Main Hotel Casino are considered as specific borrowings. Accordingly, the Group capitalized the related interest expense of P854.7 million, net of interest income of P6.1 million, for the nine months ended September 30, 2021.

The effects of the restatements as of and for the nine months ended September 30, 2021 are as follows:

	st: As previously	Interim consolidated statement of financial position As previously Effects of

Impact in net loss		(<u>P 854,654,156</u>))				

The restatements presented above did not affect the interim consolidated statement of cash flows, as such restatements have nil net impact to the cash flows from operating activities.

3. SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES

In preparing the interim condensed consolidated financial statements, management undertakes a number of judgments, estimates and assumptions about recognition and measurement of assets, liabilities, income and expenses. The actual results may differ from the judgments, estimates and assumptions made by management, and will seldom equal the estimated results. The judgments, estimates and assumptions applied in the interim condensed consolidated financial statements, including the key sources of estimation uncertainty, were the same as those applied in the Group's last annual consolidated financial statements as of and for the year ended December 31, 2021.

4. SEGMENT REPORTING

4.1 Business Segments

The Group's operating businesses are organized and managed separately according to the services provided, with each segment representing a unit that offers different services and serves different markets. For management purposes, the Group is organized into two major business segments, namely property management and rental, and in 2020, tourism-related business following the change in the primary purpose of the Parent Company. These are also the basis of the Group in reporting to its board of directors for its strategic decision-making activities.

- (a) Tourism-related business is the development and operation of the Main Hotel Casino.
- (b) Property Management and Rental was the operation, control of (usually on behalf of an owner) and oversight of commercial, industrial or residential real estate as used in its most broad terms. It also consists of rental from leasing activity of Parent Company and transportation services of Citylink.

The segment results also include the equity share in net earnings of an associate operating in the same industry. This segment had been ceased since April 1, 2021.

4.2 Segment Assets and Liabilities

Segment assets include all operating assets used by a segment and consist principally of operating cash and cash equivalents, prepayments and other current assets, ROUA, property and equipment, prepayments and deposits for property and equipment. Segment liabilities include all operating liabilities and consist principally of lease liabilities, loan from a related party, convertible bonds payable, trade and other payables, retention payable and due to related parties.

The business segment information of the Group as of and for the periods ended September 30, 2022 and 2021 are as follows:

12. COMMITMENTS AND CONTINGENCIES

12.1 Co-Development and Lease Agreements with a Related Party Under Common Ownership

In 2019, the Parent Company entered into a CDA with a related party under common ownership, with respect to the development of a hotel and casino. Under this agreement, the Parent Company is to raise funds of not less than USD300.0 million within 5 months (as further extended to December 31, 2020 by five supplemental agreements to the CDA), USD200.0 million (P9,853.7 million) of which is payment for the initial cost of the project. As of December 31, 2020, the Parent Company was able to raise the funds as required. The USD200.0 million initial cost of the construction of Main Hotel Casino has been fully paid and was allocated to ROUA and CIP in the amounts of P8,811.0 million and P1,042.7 million, respectively.

On February 21, 2020, and in relation to the CDA, the Parent Company entered into a lease agreement with a related party under common ownership, over three parcels of land. The lease agreement provides for an original term of until August 19, 2039 (19 years) and is renewable automatically for another 25 years subject to applicable laws and upon agreement by both parties.

The related annual rental is set at USD10.6 million which is payable starting from the latter of the first day of commencement of the operation of the Main Hotel Casino and the fulfilment of the conditions precedent or such other dates as may mutually agreed upon by both parties. In June 2022, management remeasured its lease liabilities and made a corresponding adjustment to its ROUA amounting to Php825.2 million to reflect the change in the timing of the estimated date of operations of the Main Hotel Casino, consistent to the original provisions of the lease agreement.

In 2021, the Group entered into certain lease agreements for two rental offices. However, in 2022 these were terminated; no penalties were incurred on such lease termination.

The carrying amount of the Group's ROUA as at September 30, 2022 and December 31, 2021 and movements during the periods are shown below.

12.2 Operation and Management Agreement with a Related Party Under Common Ownership

On May 4, 2020, the Parent Company entered into an Operation and Management Agreement with a related party under common ownership whereby the Parent Company shall operate and manage the Main Hotel Casino which is expected to commence operation in 2024. The agreement is effective upon the execution date of May 4, 2020 until July 11, 2033 and may be extended or renewed as mutually agreed upon by both parties.

12.3 Capital Commitments

As of September 30, 2022, the Group has commitments of about P20,969.4 million (December 31, 2021 – P23,383.0 million) for the construction of the Main Hotel Casino.

12.4 Others

The Group has other commitments and contingencies that may arise in the normal course of the Group's operations which have not been reflected in the interim condensed consolidated financial statements. Management is of the opinion that losses, if any, from these other commitments will not have material effects on the Group's interim condensed consolidated financial statements.

13. RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's risk management is coordinated with the BOD and focuses on actively securing the Group's short-to medium-term cash flows by minimizing the exposure to financial markets.

Exposure to foreign currency interest rate, credit and liquidity risk arise in the ordinary course of the Group's business activities. The main objective of the Group's risk management is to identify, monitor, and minimize those risks and to provide cost with a degree of certainty.

The Group does not actively engage in the trading of financial assets for speculative purposes nor does it write options. The financial risks to which the Group is exposed to are described in the below and in the succeeding pages.

13.1 Foreign Currency Risk

Most of the Group's transactions are carried out in Philippine pesos, its functional currency. Exposures to currency exchange rates arise from the Group's foreign currency-denominated cash, due to related parties, trade and other payables and lease liabilities which are primarily denominated in U.S. Dollar (USD), and Hong Kong Dollar (HKD).

To mitigate the Group's exposure to foreign currency risk, non-Philippine peso cash flows are monitored.

Foreign currency denominated financial assets and financial liabilities, translated into Philippine pesos at the closing rate as of September 30, 2022, are as follows:

	US\$	Php Equivalent	HKD	Php <u>Equivalent</u>
Financial assets Financial liabilities	\$ 43,602,311 (<u>108,502,601</u>)	, , ,	\$ 1,339,952 	P 10,055,937
	(\$ 64,900,290)	(P 3,823,276,084)	\$ 1,339,952	P 10,055,937

The sensitivity of the loss before tax for the period with regard to the Group's financial assets and the USD – Philippine peso exchange rate assumes a +/- 12.69% change in exchange rate while the HKD – Philippine peso exchange rate assumes a +/-12.72% change for the period ended September 30, 2022. These percentages have been determined based on the average market volatility in exchange rates in the previous year, respectively, estimated at 99% level of confidence. The sensitivity analysis is based on the Group's foreign currency financial instruments held at each reporting periods.

If the Philippine peso had strengthened against the USD, with all other variables held constant, consolidated loss before tax would have decreased by P485.1 million. If the Philippine peso had strengthened against the HKD, with all other variables held constant, consolidated loss before tax would have increased by P1.3 million.

However, if the Philippine peso had weakened against the USD and HKD by the same percentages, consolidated net loss would have changed at the opposite direction by the same amounts.

Exposures to foreign exchange rates vary during the period depending on the volume of foreign currency denominated transactions. Nonetheless, the analysis above is considered to be representative of the Group's foreign currency risk.

13.2 Interest Rate Risk

As at September 30, 2022 and December 31, 2021, the Group is exposed to changes in market interest rates through its cash and cash equivalents which are subject to variable interest rates. All other financial assets and financial liabilities have fixed rates or are non-interest bearing. Management believes that the impact of the fluctuations in interest rates would not materially impact the Group's consolidated financial statements since the interest rates have shown insignificant changes during the years.

13.3 Credit Risk

Credit risk is the risk that a counterparty may fail to discharge an obligation to the Group. The Group continuously monitors defaults of customers and other counterparties, identified either individually or by group, and incorporate this information into its credit risk controls. The Group's policy is to deal only with creditworthy counterparties.

The credit risk for cash and cash equivalents and refundable deposits are considered negligible, since the counterparties are reputable banks with high quality external credit ratings.

13.4 Liquidity Risk

The Group manages its liquidity needs by carefully monitoring scheduled debt servicing payments for long-term financial liabilities as well as cash outflows due in a day-to-day business. Liquidity needs are monitored in various time bands, on a day-to-day and week-to-week basis, as well as on the basis of a rolling 30-day projection. Long-term liquidity needs for a six months and one-year period are identified monthly.

The Group maintains cash to meet its liquidity requirements for up to 60-day periods. Excess cash are invested in time deposits. Funding for long-term liquidity needs is additionally secured by an adequate amount of committed credit facilities.

The table below summarizes the maturity profile of the Group's financial liabilities as at September 30, 2022 and December 31, 2021 reflecting the gross cash flows, which may differ from the carrying values of the liabilities at the end of reporting periods.

14.2 Fair Value Hierarchy

In accordance with PFRS 13, Fair Value Measurement, the fair value of financial assets and liabilities and non-financial assets which are measured at fair value on a recurring or non-recurring basis and those assets and liabilities not measured at fair value but for which fair value is disclosed in accordance with other relevant PFRS, are categorized into three levels based on the significance of inputs used to measure the fair value.

The fair value hierarchy has the following levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that an entity can access at the measurement date;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and,

• Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The level within which the asset or liability is classified is determined based on the lowest level of significant input to the fair value measurement.

For purposes of determining the market value at Level 1, a market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

15. CAPITAL MANAGEMENT OBJECTIVES, POLICIES AND PROCEDURES

The Group's capital management objectives are to ensure the Group's ability to continue as a going concern and to provide an adequate return to shareholders in the future.

The Group also monitors capital on the basis of the carrying amount of equity as presented on the consolidated statements of financial position. It sets the amount of capital in proportion to its overall financing structure, i.e., equity and financial liabilities. The Group manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets.
